

# Forefront as a Social Token Gold Standard

In the spirit of lean token design, the Forefront token (FF) is being released as a highly modular token used to manage how new communities onboard and interact with the Forefront platform.

**Disclaimer:** Forefront token holds no inherent value. It has no claim on cash flows and will launch with the sole use case of being used for governance and curation.

## Forefront Token Metrics

Token	Total Supply	Token Contract
\$FF	10,000,000	0x7e9d8f...b4cd5fb94cd
